

## About Us

We are locally owned and all staff are local. We work closely with each patient's personal physician and care team to ensure 100% consistency of the care plan and continuity of services.

Nearly 30 years in home health care experience provides us with the ability to deliver outstanding quality of services and adherence to all clinical and privacy guidelines.

We deliver home health care with a heart and are available to our patients 24/7. Communication conferences among our professional team members ensures the highest level of patient care focused on continuous health improvement.

# Why Choose Hallmark?

## Medicare/ Medicaid Certified

## JCAHO Accredited

**We accept Medicare,  
Medicaid & Most All Health  
Insurance Plans**

We have successfully delivered home health services for almost 30 years in the Danville and Pittsylvania County areas. We work closely with each patient's personal physician for optimal care.

We manage a broad range of conditions and educate and empower patients to steadily improve. We also focus on avoiding unnecessary hospitalizations and help patients improve their health and quality of life - regaining their independence and confidence.

Whether your patients have had surgery, are recovering from an illness or injury, are coping with a chronic disease, are undergoing cancer treatment, or need help managing other health challenges, we have the professional team to help. Our multi-disciplinary approach to care supports your care plan to help manage the whole patient for faster and more complete healing.

## "HOME CARE WITH A HEART"

# What We Provide

## Professional Home Care with a Heart

Hallmark Home Health Care professionals provide in-home care for post surgical, injury or illness; wound care; and management of chronic health conditions to facilitate healing at home and avoiding readmissions.

We adhere to the physician's plan of care and keep the physician updated on patient progress and any change in health condition. We educate patients on the importance of medication compliance and monitor their adherence. Our professionals guide your patients to optimize their home environment as a place to heal.

## Experienced Staff

Our staff have the education and experience to make a difference. They receive initial and ongoing training to stay up-to-date on the most effective care options to support healing at home. Professional in-services keep our staff current on what they need to know to deliver the highest quality home care services.
